

AGRICULTURAL STATISTICS OF PAKISTAN

2024-25

15% CASH CROPS

Sugarcane, Cotton, Tobacco, Sugar beet, Jute, Guarseed

7% OTHERS

Includes forestry, fodder, nursery, mushrooms and other agricultural activities.

6% OILSEEDS

Rapeseed, Sesame, Groundnuts, Linseed, Castorseed, Others

4% PULSES

Gram, Mung, Mash, Masoor, Matar, Others

3% FRUITS

Mixed fruits including citrus, mango, apple, grapes, banana, etc.

3% VEGETABLES

Mixed vegetables including leafy, root, tuber, gourds, brinjal, tomato, etc.

2% CONDIMENTS

Chillies, Onion, Garlic, Coriander, Turmeric & Ginger

FOREWORD

Agriculture plays a vital role in the economy of Pakistan by contributing to food security, employment generation, rural development, and national economic growth. Ministry of National Food Security & Research (M/o NFS&R) has the mandate to achieve the foremost goal of national food security, endeavouring through incessant research and improved national policies. Reliable and timely agricultural statistics are therefore essential for evidence-based policy formulation, planning, research, and sustainable development of the sector.

This publication presents comprehensive statistical information on major and special crops, land utilization, irrigation, agricultural inputs, mechanization, livestock, fisheries, forestry, agricultural prices, and trade. It also provides time-series data to facilitate comparative analysis and informed decision-making for policymakers, researchers, academicians, and other stakeholders. The data compiled in this report reflects the collective efforts of various departments and statistical organizations involved in data collection and analysis. I acknowledge with gratitude the cooperation and support extended by all federal and provincial departments, organizations, and individuals who contributed to the preparation of this publication

I appreciate the dedication and hard work of all officers and staff of Economic Wing who contributed to the preparation of this publication. Suggestions for further improvement of future editions are always welcome

.

INTRODUCTION

Since 1968, the Economic Wing of the defunct Ministry of Food and Agriculture was publishing Agricultural Statistics of Pakistan on annual basis. This publication is widely used by the local and international organizations for policy formulation, planning and research. Major objectives of this publication are to facilitate policy formulation, planning, and research. The Economic Wing Ministry of NFS&R is undertaking this significant activity of presenting this publication “Agricultural Statistics of Pakistan 2024-25”.

Agriculture remains a cornerstone of Pakistan’s economy, contributing significantly to national income, employment generation, rural livelihoods, food security, and export earnings. The sector supports a large proportion of the country’s population and provides raw materials to major industries. Accurate agricultural statistics are therefore essential for monitoring sectoral performance, assessing production trends, formulating development strategies, and evaluating the impact of government policies and programs

This publication presents detailed statistics on major and special crops, land utilization, irrigation, agricultural inputs, livestock, fisheries, forestry, agricultural machinery, prices, trade, and other related indicators for the year 2024-25. The data have been compiled from federal and provincial government departments, research institutions, and other relevant organizations to ensure accuracy, consistency, and national coverage.

It also contains the details of irrigated, non-irrigated areas, farm size etc. The data about agricultural inputs, i.e. improved seeds, fertilizers, water, pesticides, rainfall data and details of area covered by plant protection etc are also given. The data relating to disbursement of agricultural credit by Commercial Banks, ZTBL, PPCBL and domestic private banks is also documented in this publication. The data pertaining to agricultural machinery, lift pumps, tube wells and tractors according to horsepower, farm size as well as private/public ownership etc is also part of this publication. Being integral part of agricultural system the publication is consisting of data on livestock population in the country alongwith estimated production of milk, meat, eggs and other livestock products etc. It also provides data about inland and marine fish production and details of fishing crafts. Part of the publication also provides information about forestry, rangeland, major forest products and value addition of various forestry products etc. The publication also covers trade statistics relating to major exports and imports of agricultural commodities. In addition, it provides details of procurement/support and intervention prices as well as wholesale prices of various important crops such as wheat, cotton, sugarcane and maize besides rates of diesel, electricity & petroleum products etc. The data

provided on per capita availability of cereals, edible oils, meat, fish and milk alongwith estimates of GDP etc. add value to this publication.

The Government policy is to ensure food security through sustainable agricultural development and balanced growth of food sector to meet growing population needs and also to generate agricultural surplus to enhance the export of agricultural sector, which would eventually lead to a healthy economy. It would only be possible, if reliable data is available; which is the primary objective of this publication. The timely and prompt cooperation extended by all the concerned departments and organizations at federal and provincial level is well acknowledged with gratitude.

The publication is also available at M/o NFS&R's website www.mnfsr.gov.pk. Economic Wing M/o NFS&R may be contacted for any additional information/suggestions for improvements, in future endeavors.

AGRICULTURE STATISTICS OF PAKISTAN

SALIENT FEATURES IN CHARTS

2024-25

1. TOTAL, GROUND AND SURFACE WATER AVAILABILITY

2. LAND UTILIZATION STATISTICS OF PAKISTAN

Geographical Area is that area which has been surveyed and calculated by the Survey of Pakistan.

Total area reported/ Utilized is the total physical area of the village/ Deh, tehsil, or district etc.

Area not available for cultivation/ Not for agriculture is that uncultivated area of the farm which under farm homestead, farm roads and other connected purposes and therefore not available for cultivation.

Culturable waste is that uncultivated area which is fit for cultivation but was not cropped during the year under reference nor in the year before.

Cultivated area is that area which was sown at least during the year under reference or during the previous year.

Net Area Sown is that area which is sown at least once during the (Kharif & Rabi) the year under reference.

3. DISTRIBUTION OF TOTAL, RABI AND KHARIF CROPPED AREA 2024-25

3.1 Area under Rabi crops 2024-25 “000”hectares

3.2 Area under Kharif crops 2024-25 “000”hectares

3.3 Province-wise share of major rabi crop (Wheat)

4. Agriculture growth

4.1 Components of Agriculture Sector 2024-25

5. AREA, PRODUCTION AND YIELD TRENDS OF MAJOR AGRICULTURE CROPS

5.1 Wheat

5.2 Rice

5.2.1 Rice Variety wise

5.3 MAIZE

5.4 SUGARCANE

5.5 COTTON

5.6 ALL CEREALS

6. TRADE

6.1 IMPORT, EXPORT OF FOOD GROUP

6.1 EXPORT OF MAJOR FOOD COMMODITIES

6.2 QUANTITY IMPORT OF EDIBLE OIL

7. MILK PRODUCTION AND CONSUMPTION

7.1 TOP 5- BUFFALO MILK PRODUCER COUNTRIES

8- AGRICULTURE CREDIT

SOURCE OF CROPS DATA

AREA, PRODUCTION AND YIELD PER HECTARE

The area and production data in the following tables is based on the crops estimates supplied by the Crop Reporting Services of Provinces and compiled by the Ministry of National Food Security and Research (Economic Wing). Rounding of figures may result in slight difference.

Area below 50 hectares is denoted with symbol “a”

Production below 50 tonnes with symbol “b”

Table 1

GEOGRAPHICAL AREA is that area which has been surveyed and calculated by the Survey of Pakistan**TOTAL AREA REPORTED** is the total physical area of the village/deh, tehsil or district etc.**FOREST AREA** is the area of any land classed or administered as forest under any legal.

enactment dealing with forests. Any cultivated area which may exist within such forest should be excluded (and shown under heading cultivated area).

AREA NOT AVAILABLE FOR CULTIVATION is that uncultivated area of the farm which is under farm home-steads, farm roads and other connected purposes and therefore not available for cultivation.**CULTURABLE WASTE** is that uncultivated farm area which is fit for cultivation but was not cropped during the year under reference nor in the year before that.**CULTIVATED AREA** is that area which was sown at least during the year under reference or during the previous year. Cultivated Area = Net Area sown + Current Fallow**CURRENT FALLOW** is that area which is vacant during the year under reference but was sown at least once during the previous year.**NET AREA SOWN** is that area which is sown at least once during (Kharif & Rabi) the year under reference.**AREA SOWN MORE THAN ONCE** is the difference between the total cropped area and the net area sown.**TOTAL CROPPED AREA** means the aggregate area of crops raised in a farm during the year under reference including the area under fruit trees.

N.B. Vegetables include Potatoes.

Food Crops = Wheat, Rice, Jowar, Maize, Bajra and Barley.

Cash crops = Sugarcane, Cotton, Tobacco, S.beet, Jute and Guarseed, Sunhemp

Pulses = Gram, Mung, Mash, Masoor, Mattar, Other Kharif and Rabi Pulses.

Oilseeds = Rapeseed & Mustard, Sesamum, Groundnut, Linseed,
Castorseed and other oilseeds.

Condiments = Chillies, Onion, Garlic, Coriander. Turmeric and Ginger

I = Public tubewells, II = Private tubewells

P = Provisional, R = Repeated, * = Commulative

From 2019-20 to 2023-24, Tubewells on Solar system are also included in Total Number of Govt and Private Tubewells in Sindh, KPK and Balochistan.

CONVERSION FACTORS**Weights**

One pound (16. Oz)	=	0.45359 Kgs	=	0.48609 Seer.
One hundred weight(112 lbs)	=	50.80208 Kgs	=	1.361 Maunds.
One ton (2240 lbs)	=	1.01605 M.tons	=	27.22 Maunds.
			=	5.60/5.71 bales
			=	of jute/cotton
One tonne	=	0.984 Tons	=	26.792 Maunds.
Cotton bale(375 Lbs)	=	170.09 Kgs	=	4.5571 Maunds
			=	0.1674 Long ton
1 Bushel per acre	=	67.253 Kgs. per hectare		
1 Bushel	=	0.73 Maund.		
	=	29.17 Seers.		
	=	60.00 Lbs.		

Length

One inch	=	25.3999 Millimeters
One foot (12 inches)	=	0.3048 Meter
One yard (3 feet)	=	0.9144 Meter
One mile (1760 yards)	=	1.60934 Kilometers

Square Measures

One square yard	=	Nine Square Feet	=	0.83613 Square Meter
One acre	=	4840 Square Yards	=	0.40468 Hectares
One square mile	=	640 Acres	=	258.99842 Hectare
One square kilometer	=		=	0.3861 Square Mile
One Hectare	=		=	2.4711 Acres
One Cubic Meter	=		=	2.4711 Acres/ (35.3147 Cubic Feet)

Liquid

One imperial gallon	=	4.5461 litres or 1.2 U.S gallons
One U.S. gallon	=	3.7853 litres.

GENERAL CONVERSIONS

<u>Divide</u>	<u>By Factor</u>	<u>To obtain</u>
Acres	2.4711	Hectares
Long ton	0.9842	M.tons
Cotton bales (375 lbs)	5.973	Long tons
Cotton bales (375 lbs)	5.879	M.tons
Maunds	26.79	M.tons
Price per 40 kgs.	1.0716	Price/maund
Yield kgs per hect.	92.2313	Yield maunds/acre.
Rice	0.666	Paddy
Cotton Lint	0.333	Seed Cotton

N.B.- In case of vice-versa multiply with the factor.
